

AJKTM 2018 | How Strong is the Bridge?! 2018

9th international spaghetti bridge competition

AJKTM 2018 is a great opportunity for students of Civil Engineering, Architecture, Mechanical Engineering or other technical sciences (other students are also welcome) to test their skills and knowledge in competitive yet friendly and fun atmosphere. Competition is known as the biggest of a kind in this part of Europe. Winning teams will receive considerable monetary prizes (total prize money is 3000 EUR). AJKTM 2018 is not only about competition. During three days in Maribor a lot of different social and cultural events are planned as well. Food and accommodation will be provided for all the participating teams. For more information see ajktm.fg.um.si.
